DICKSON SOLAR FABRICS

DICKSON®

EDITORIAL

Faced with the challenge of climate change, the solar protection market is constantly innovating to meet the increasingly high standards of ever-more environmentally conscious consumers.

French technical textile leader Dickson Constant is pleased to present its DICKSON SOLAR FABRICS collection. Attractive, technically advanced, durable and easy to care for, DICKSON fabrics can be fitted to the system of your choice - folding-arm awnings, pergolas, shade sails, parasols and more - for optimal and long-lasting life comfort.

This new collection is built on 4 PILLARS, capturing the unique character of DICKSON CONSTANT :

1

Our fabrics are design

And are a decorative centrepiece for your living spaces
This collection resonates with key trends from the home decoration, architecture and building materials.

2

Our fabrics are technical

And provide enhanced comfort
Made from 100% solution-dyed acrylic fibres and treated with an innovative finish, they deliver long-lasting protection against UV-rays, heat, glare and outdoor weather conditions.

3

Our fabrics are sustainable

DICKSON is strongly committed to a continuous improvement process that protects the environment, improves well-being at work, upgrades the quality of its products and increases the energy performance of buildings.
Throughout the lifecycle of our products.

4

Our fabrics are people-centric

DICKSON owes its success to its committed employees, loyal and professional partners, and end-consumers in search for design, high-performance and sustainable solutions.

OUR FABRICS ARE TRENDY

ORCHESTRA range, the cornerstone of our DICKSON SOLAR FABRICS collection, is available **in four main colour groups - STONE, NATURAL, SOLAR and POLAR -** and comes in a wide range **of textured solids and contemporary stripes.**

Did YOU KNOW ?

Colours can enhance wellbeing and help create cool, temperate or warm atmospheres.

As sunlight diffuses through the fibres of awning fabric it colours the light and alters our perception of the space by “cooling” or “warming” the natural light.

HARD-WEARING AND LONG-LASTING FABRICS

Drawing on our long-standing research and development expertise, Dickson fabrics are woven from **«SUNACRYL»** acrylic fibres.

These premium fibres are **solution-dyed** which means pigments are incorporated at the very early stage of the process, **ensuring they penetrate to the heart of the fibre for unrivalled UV colourfastness.**

Our Outdoor «**CLEANGARD»** coating gives **long-lasting protection and provides easy care.**

Our fabrics are **rotproof and water repellent** and retain their colour intensity year after year. They also offer long-lasting protection from sunlight and inclement weather.
